

Comfort Zone

by GOLDEN

Zone 1

LOWER BODY

Comfort Zones 1 – 5

This positioning system incorporates all five adjustable comfort zones to create the ultimate wellness comfort experience. Each Comfort Zone can be adjusted independently by using the exclusive AutoDrive hand control.

The patented four-way motion of the seat helps provide relief to muscle and joint pain by placing your lower body in a supported ergonomic position.

Zone 2

UPPER BODY

The independent movement of the backrest allows stress and strain to be released from your upper body by offering adjustable support for your back and shoulders.

Zone 3

HEADREST

The upward motion of the adjustable headrest allows for tension to be released from your neck and shoulders by supporting your head placement, while encouraging the natural shape of your spine.

Zone 4

LUMBAR

The custom and firm support of the adjustable lumbar can take pressure off your spine while giving your back muscles the chance to rest and rejuvenate.

Zone 5

TWILIGHT TILT

The tilting motion of the patented Twilight Technology provides a feeling of weightlessness and offers even more positioning options not available with other recliners. Encourage circulation by relaxing with your legs elevated or promote the release of muscle tension and joint pain in a comforting neutral position.
