

## Half Length Bed Rails

HCPCS: E0305

FIGURE A

FIGURE B

- Unique design prevents individuals from being lodged between bars
- Ideal for maximum protection when bed is elevated
- Fits most hospital beds with steel frame (Figure A)
- Attractive brown-vein finish is easy-to-maintain and less institutional looking (Figure B)
- Constructed of 1" steel
- Not for use with "Pan-Style" bed surface
- Easy-to-install
