

INVACARE® MICROAIR® MA900  
THERAPEUTIC SUPPORT SURFACE

Yes, you can.®

**microAIR®**

# Invacare® microAIR® MA900

Lateral Rotation Low Air Loss Mattress System

**Medium - High Risk  
Stage I-IV**

Alternating Lateral Rotation and True Low Air Loss help provide Pressure Relief and Moisture Management, with built-in side bolsters for added safety

**Highly vapor permeable and oversized pliable quilted nylon top cover** designed to provide low shear, friction and moisture protection

**Cable management system** keeps cords away from the ground to help prevent trip hazards

**Nylon base cover** designed to help to reduce shear and friction during bed articulation

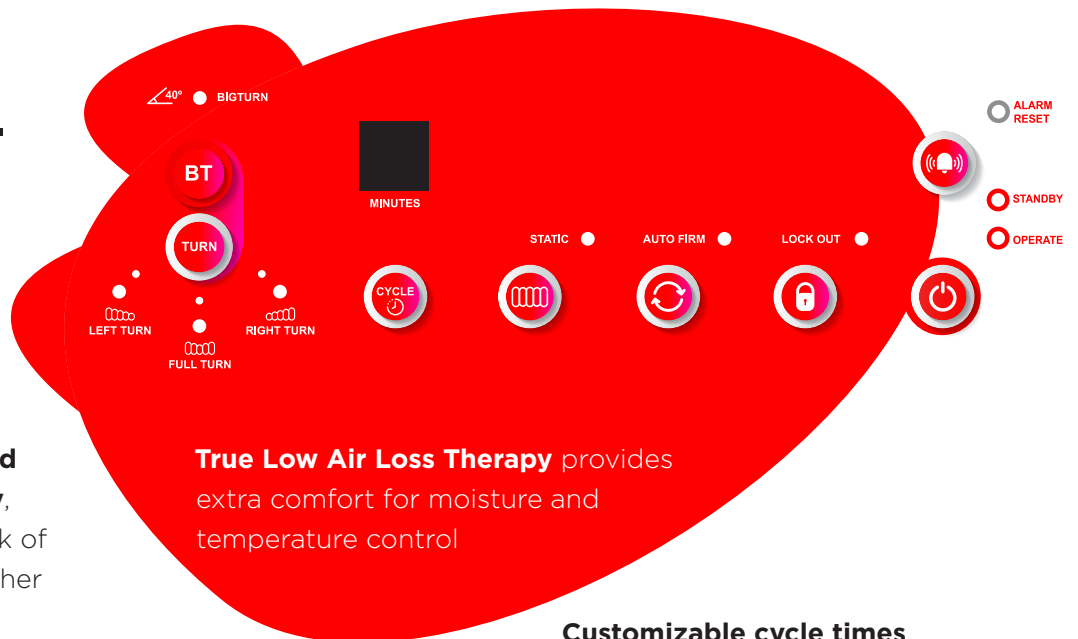

# Features & Benefits

**10 adjustable comfort settings** depending on the patient's therapy requirement

**Auto Firm Mode** designed to provide quick maximum inflation within seconds to aid with transfers and nursing procedures

Features **continuous 20° and 40° lateral rotation therapy**, which can help lower the risk of infection, pneumonia and other pulmonary complications in at-risk patients

**True Low Air Loss Therapy** provides extra comfort for moisture and temperature control

**Customizable cycle times** to meet patient's varying needs

**Foam base** is designed to help prevent bottoming out in the event of a power failure

**Soft nylon urethane backed cells** provide easy cleaning and helps minimize the proliferation of bacterial growth

**Inflatable built-in side bolsters** with manual connectors can be removed as needed to aid with ease of ingress and egress

**External exhaust** keeps the mattress surface cooler and the pump quieter
