CUSHION CATEGORIES

Skin Protection and Positioning Series (SPP) cushions offer a range of positioning options, convenient storage, and the Coolcore® Chemical-Free cover technology to effectively maintain comfort and proper contact skin temperature throughout the seasons. A selection of molded foams and a variety of inserts, relief cutouts, and toppers provide exceptional stability and comfort while keeping the pelvis in an optimal neutral position.

Positioning Series (P) cushions employ a high-density molded foam base with a closed cell posterior support section to keep the pelvis in a neutral position, provide optimal pelvic positioning and stability, and add exceptional comfort with a soft foam topper.

Skin Protection Series (SP) includes a general-use cushion with a foam or gel topper, specifically designed to protect the user from skin abrasions and discomfort during long-term use. It also utilizes a chemical-free Coolcore® cover, designed to effectively maintain proper and comfortable contact skin temperature throughout the seasons.

General Use Series (G) cushions are specifically designed for comfort, with basic mild contouring and cutouts for coccygeal and sacral relief. It is available from 16 in. to 22 in. (40.64cm to 55.88cm) in width and from 16 in. to 20 in. (40.64cm to 50.80cm) in depth.

Coccyx and Sacral Relief

Contoured to increase pelvic stability and contact area

Mildly contoured, high density molded foam

- Contoured base provides pelvic stability, lower extremity support, and increases overall surface contact area
- Posterior cutout provides relief at the coccyx and lower sacral region.
- Top layer of Extra Extra Soft SunMate FRG foam provides optimal skin protection through immersive properties and improves micro-climate
- Coolcore is the standard cushion cover material that has proven temperature and moisture control
- Fire resistance: ISO 8191-1, ISO 8191-2, CAL 117-2013
- Biological evaluation /cytotoxicity ISO 10993-5, 10993-10
- Sub-trochanter support to increase lateral stability
- Maintains alignment of the femurs medially and laterally

1. Special Order Form
 2. CoolCore® is standard on all cushions except the Simplicity G.
 3. Special order sizes available for all cushions except the Glacial SP. Contact sales for additional assistance
 4. Allowances listed are estimations for cushions billed in conjunction with Group 3 power chair bases using the KU modifier and may vary by state

COVERS & FOAM MODS

COVER OPTIONS

COOLCORE®

Coolcore is a research proven performance fabric technology that adapts to its environment and regulates temperature by managing heat and moisture. The proprietary construction helps manage and distribute moisture quickly throughout the fabric to enhance the evaporation and drying time.

STEALTH-TEK

Stealth-Tek is a cast coated fabric, which is nylon/polyester fabric coated with polyurethane through the cast coating method. These type of fabrics are waterproof with stretch capability and applications in medical and healthcare. Stealth-Tek is Fluid Proof PU Film laminated to 100% polyester knit T-jersey. It is used in a variety of applications. Waterproof, Breathable and Washable.

AIR MESH

Air Flow Mesh, better known as Air Mesh, is equipped with fine pores for superior air circulation, it can assist with positioning if the client has sliding issues with the current cushion cover material. This fabric is ideal for those in hot or humid environments.

Open Cell (OC3)

Open cell viscoelastic polyurethane foam is a soft foam. Open cell refers to the cell walls, or surfaces of the bubbles, which are broken so that air fills all of the spaces in the material.

SunMate® Fire Retardant Graphite (FRG) Cushions

FRG cushions provide the same high impact energy absorption and soft pressure properties as regular SunMate®, but with an added element of safety. SunMate® FRG contains a non-halogenated fire retardant that allows the cushion to pass more stringent fire tests. FRG also provides medical or government facilities, required to purchase equipment that meets strict fire codes, with a safe, high-quality cushion option.¹

The FRG is a patented all-natural fire retardant material (no additives) made of 33% to 36% plant-based ingredients.
