## **Swivel Sliding Transfer Bench - Parts Reference Sheet**

# **Assembly Instruction Sheet**

- 1. Take the leg frame with the handlebar (Part A), and lay it flat on the ground.
- 2. Determine which direction you would like the seat to face in your bathtub. The leg frame with the handlebar (Part A) will be the side that goes inside the bathtub.
- 3. There are two sliding rails (Part C): one rail has 4 brass push buttons (front rail), and the other rail has 2 brass push buttons (rear rail).
- 4. If you prefer to sit facing left (if looking at the tub from the outside), take the rail with 4 push buttons (front rail), and insert it into tube X (or insert it into tube Y if you want to sit facing right). Make sure the two larger push buttons face down, and the two smaller push buttons face forwards (the smaller push buttons are for the sliding rail locking mechanisms). Make sure the larger, bottom button snaps firmly into the frame.
- 5. Insert the other sliding rail into the other side of the leg frame (Part A), making sure the button snaps firmly into place.
- 6. Take the seat with the attached sliding rings (Part D), and align the sliding rings with the rails,

7. Take the other leg frame (Part B), and insert the sliding rails into it.

turning them outward for maximum floor contact. 9. Sit the bench up on the legs. Take the backrest (Part F), and press the two brass push buttons on the frame of the backrest. Insert the backrest into the tubes underneath

the seat, and push it in until the brass push buttons snap firmly into place. Thank you for purchasing an Eagle Health Supplies product! Helpful instructional assembly videos available at www.EagleHealth.com.

If any push button/pin does not completely snap into place while assembling, or if you feel the bench is not secure, please do not use the bench, and notify your Authorized Dealer immediately.

To register your product for the Limited One-Year Warranty, please complete and return the included Warranty Card, or register online at www.EagleHealth.com.

# Tips for Care and Use

## **Locking Mechanism**

Lock the seat into place by making sure the slide ring snaps firmly onto the brass push button at the end of the sliding rail (shown below). Release the locking mechanism by pressing down on the red tab of the locked slide ring.

**UNLOCKED** 

**LOCKED** 

#### Swivel Seat

Press down on the red tab located under the center of the seat's front edge to turn the swivel seat, and rotate the seat slightly. Once the seat starts to swivel, release the red tab. The swivel seat locks every 90 degrees.

### Cleaning

Rinse off the bench with warm water after each use to prevent dirt, soap scum, and mineral deposits from forming which could affect proper operation. We recommend regularly cleaning the seat and back with a soft cloth, warm water and mild soap, or with a soft cloth and any non-bleach cleaner.

#### Maintenance

Built up soap scum, mineral deposits, or watermarks may cause the brass push buttons/pins to stick or may cause the seat to not slide smoothly along the rails. To help, spray lubricant, such as WD-40, on the brass push buttons/pins to loosen the buttons/pins, or along the sliding rails to maintain a smooth slide.

To maintain a smooth swivel, regularly use WD-40, or other lubricant, and spray in between the swivel plates, towards the middle swivel bolt.
